Attached is the final plans packet for On Target 2007.

There will probably be one more update before I have to leave town. After that, please coordinate via email and phone until you leave.

This is also posted on the www.mesaversity.org. Good luck on the peaks and have a great time.

I should remind you that the after action reports are very helpful. Please return one after the activity. Plus, in the Mesa District, they are a key to getting the Golf Passport at the next Mogollon Rendezvous.
