Detailed instructions on how to get to the actual site for signaling:

Take Arizona Snowbowl lift. Apparently walk about 500' straight ahead after leaving lift
We were unable to take the lift due to lightning strikes, followed by hail. Missed out on the whole peak activity.
Things to know: (1) first lift is 10am, which would leave little time to set up and signal. Next time, those who
want to use this "peak" may want to investigate hiking up and/or taking the lift Friday early afternoon, then
camping, IF there are trails and camping sites where this is permitted. (2) Peak itself cannot legally be hiked.
GPS co-ords are of est. highest accessible point per discussions with Snowbowl and Google Earth
GPs Coordinates: North: 35.325899 West: -111.684495 Elevation: 11627
